

Tagline:

Generate cover photos for all social media.

Short description:

Design, customize and automatically generate professional social media cover photos with up-to-date formats and sizes.

Long description:

Gabzzle is a web-based tool to design, customize and automatically generate professional social media cover photos with up-to-date formats and sizes. Whether that is a logo, a screenshot or an illustration; add and import your custom brand assets easily.

Customize your cover photo look with your company's name, a tagline, change the font, set your color palette and more.

Export your masterpiece in all up-to-date supported formats and resolutions. It's ready to be shipped and displayed across your preferred platforms.

Key features:

- Unlimited designs
- Unlimited downloads
- Premium templates
- Import images
- Add and customize text, font and color
- Live preview

Key benefits:

- Save both in cost and time and stay consistent across social media.
- Stay up-to-date with latest social media guidelines and sizes.
- Ideal for non-designers.
- Customize your design to match your branding.
